Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 12-14 and 19-24 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Vardi et al. (WO 99/36002)

Vardi et al. disclose various embodiments of a coated, self-expanding stent comprising a plurality of serpentine band with a plurality of alternating peak portions and trough portions, the peak portions of the at least one serpentine band being at the distal end of the band such that the peak portions are more distal than the trough portions, some of the peak portions including bent peak portions which bend away from the longitudinal axis of the stent, each of the bent peak portions wrapping at least partially about an adjacent peak portion, wherein the trough portions including at least two bent troughs portions which bend toward one another, each of the bent trough portions wrapping at least partially about an adjacent trough, wherein the peak portions adjacent to the bent peaks portions are positioned by at least one location which is less than distal than the bent peak portions and more distal than the trough portions (see figure 11).

Allowable Subject Matter

Claims 1-6, 9-11 and 15-18 are allowed.

Response to Arguments

Applicant's arguments with respect to claims 12-14 and 19-24 have been considered but are not persuasive.

It is unclear how the amendment is intended to overcome the prior art. It is noted that the term "adjacent" does not necessarily mean contiguous or immediately beside. Likewise, serpentine need not exclude the portion labeled by Applicant as "B," since serpentine means resembling a serpent or sinuous, both of which quite aptly describe portion "B." In fact, there are many locations on the stent that appear to satisfy the claimed limitations, even as amended.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
